Service: website design & development

A novice artist from Los Angeles ordered development of a personal [website](#) to promote her profile and to have a possibility to sell her works.

Design of the website is made in minimal style with an emphasis on artist's works which are located in the center of a screen. The site uses neutral black and white colors.

Joomla CMS system is used as a database storage and management system. An online payment system which uses PayPal and bank cards was integrated into the site.
